

OSA - 1314-68

10 April 1968

To: Contracting Officer, SP-1928 ✓
Subject: CONTRACT SP-1928, FINAL ACCOUNTABILITY FOR PROPERTY
Reference: (A) Depot Message No. 6180 dated 19 December 1967
(B) Headquarters Message No. 8246 dated 13 February 1968
(C) Contractor's Message No. 9090 dated 12 March 1968

We wish to advise that we have now completed the actions required to account for the property furnished to, or acquired by us during the performance of SP-1928. Reference (A) recorded that the accounting for GFP from the Depot had been completed. In reference (C) we advised that the tooling which was accountable under SP-1928, including the tools transferred from SP-1926, had been shipped to the Depot.

The remaining engine conversion parts were subsequently listed and shipped either to the Depot or transferred, in accordance with instructions from the Depot, to IRAN Stock for use by the Contractor under SP-1923. Shipping documents have been executed to record these final property transfers. Having completed shipment of the J-75 engine conversion parts, we can now state that we have no residual property, either furnished or acquired, remaining in our possession and accountable under SP-1928.

Please advise of any further information you need to reconcile your records for this contract. Upon completion of your review, we will appreciate receiving confirmation that our property records are in agreement and that the accounting for property is considered complete.

Sincerely,

25X1A
